Value to Students:

- Contributing articles on school's website/e-magazine – thus enhancing their writing/expression skills.
- Make their own Homepage/profile with photos in pre-set templates – thus enhancing their creativity.
- Be a part of discussion forum on projects/careers/technology etc.
- Personalized interaction with subject teacher, class teacher and fellow students using internal e-mailing system.
- Never loose any information about the school notices/news/ circulars.
- Get online **assignments/projects/home-works**.
- Enroll yourself as alumni and be in touch with the school/teachers/old friends.

Value to Teachers:-

- Get rid of mundane clerical tasks like maintaining attendance register, calculating percentages of marks and attendance, etc.
- Mark only absentees/late comers and let the software calculate monthly/term-wise/yearly attendance and attendance percentage.
- By just putting marks/grades/remarks in the software get customized progress report card with marks/grades/marks & grades/remarks, class rank, attendance, etc.
- Publish articles of interest to students
- Write to the parent/peer teachers/students/administrators individually.
- Organizing and participating in discussion forums on projects/careers/technology

Value to Administrators/ Management:-

- Get all the real – time information from various departments online for data-driven decision making.
- Control over resources and tools to ensure optimum utilization of resources.
- Get all the information on the parents' grievances and redressal thereof.
- No redundancy of work/data entry with centralized database system.
- Manage the daily substitutions (timetable) efficiently and effectively.
- By using latest technologies like Smart Card, Bio-metrics and SMS make your school a Audit School.
- Control over finances/inventories with authentications and approvals.

Value to Parents:-

- Get access to each and every information about your ward online – fees, library, activity, discipline, health, attendance, examination, etc.
- Write to subject/class teacher directly for any counseling/ improvements.
- Get every information about the school with live news, image gallery, downloads, achievements, etc.
- Make payment of fees online or give standing instructions to get fee bill cleared from your account automatically. So no need of standing in queues for depositing fees on fee counter or in bank.

"To help Schools achieve faster and cost-effective implementation of solution through the use of world-class, innovative implementation tools & techniques."
